My dear Sir

you mistake. The lock I
am going to send you is from
Bedford Castle.

The enclosed paper hap-
pened to come into my hands
so I sent it to you, the lock
figured in it is another found
at Northampton Castle.
This is (I think) in the
Northampton Museum

I will send you a

Copy of the paper, which the
State belongs, but it comes
out - if you will remind me

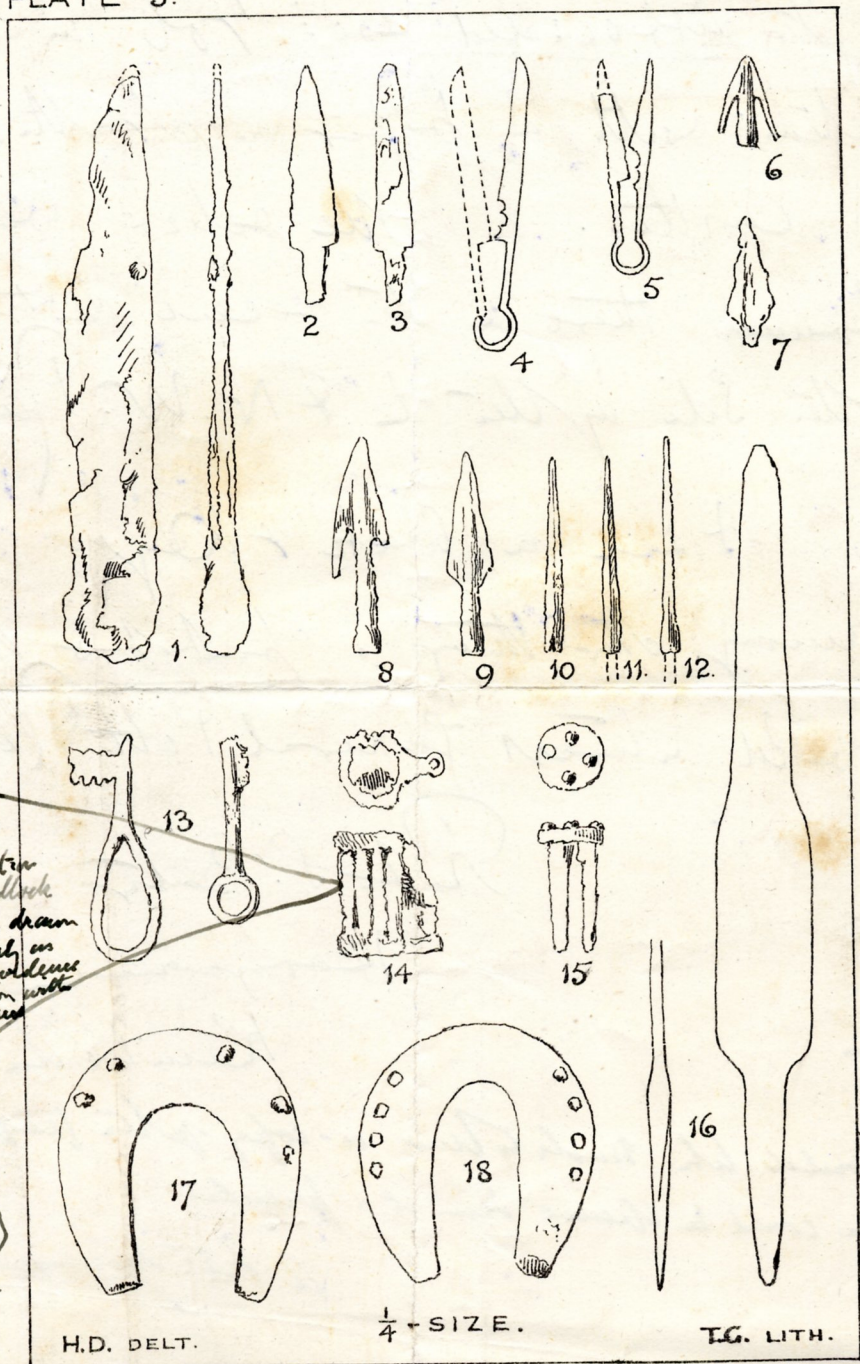

I have packed up for
you the following articles
which I dispatch to day or
to morrow by rail to Knicker-
Watson

1. Lock from Bedford Castle
2. Bunch of Springs
3. Lock from Rochester
4. portion of another

5. 3 bronze keys from
Rochester
6. a lot of Iron keys
from Rochester
7. Key from Northampton
Castle
8. Key from the Chene Valley
9. Bunch of Springs picked
up here

Yours truly
Robt. S. Bates

PLATE 3.

Suggested that the ornamentation on this plectrum should be drawn more clearly, as it affords evidence of connection with other countries.

The northern should be shown of it exists

This Medal is about to appear
in the Associated Socy's Vol in con-
nection with a paper on Northamp-
ton Castle. The relics were
found there in the recent destruction
of the Site by the L & N.W. Railway

I see a book & Keys
among the things, perhaps they
would interest General Pitt Rivers

I should like much to have a copy of the paper
if one could be secured since it is peculiar
