

with the other vols for our  
Library.

I have just been copying  
Mrs Cleric French's notes  
on Wakering & Shebury. Is  
it not very probable that  
the "passages" as she  
calls them may have  
been cuttings in top-  
found as tops were extensively  
cultivated in Essex at the  
time? I wonder if the field  
is called "Hopper" a very  
Common Essex field-name

Dear Sir,

My friend Mr C Bred  
tells me that you are good  
enough to promise us such  
of your works as you doubt  
possess. I am sorry to  
say the only one in our  
possession is Vol 1 & 1887  
we shall feel greatly  
obliged if you will favour
