Dear Gen<sup>l</sup> Pitt Rivers  
I was so disap-  
pointed that owing  
to the wet, it was  
hopeless to expect  
you to come to  
Hurston Fair this  
year - I wanted  
so much to show  
you my plan  
& how well the  
people are coming  
round.

How in spite  
of my taking  
a visit home  
with them. The  
my committee  
the tolls (re num-  
ber) are more  
not less - as we  
gradually civil-  
ize them. -  
So you - will join  
for entertaining  
the maps

in a rational manner  
my experiment out  
the of interest & I  
write to ask if there  
is any chance of  
meeting you  
& come down  
lunch here on  
Thursday next & advise  
us on various <sup>points</sup>  
As I want to hear  
further particulars  
about your Indian  
exhibitions - as I  
see people up about  
it. I can never  
think of refusing

(who has made  
Shroton House look  
so nice) & might  
we come along  
- as I am not  
very strong & a  
long drive rather  
knocks me up -  
I asked your m<sup>r</sup>  
to give you our  
nick advertisement  
went of Shroton  
Fair -

1877  
I hope he did -  
one of our archae-  
ological priests  
was much ex-  
cited over the  
Roman villa -  
which we took  
him to see - He  
said there was  
evidence of a  
large mass of  
building -

one so hard of  
tear him from  
the spot!

Yours truly  
with kindest regards  
Mrs Pitt Rivers
