London. W. 1. 2nd fl.

Sir,

I have at last been enabled to follow up & discover the owner of the great Honduras Phil. Supplement & as promised I communicate to you first about it. It was found with a series of other specimens as per list enclosed in Honduras about 20 years ago. - The owner is aware of the other specimens & has really never been willing to

dispose of it. Since I have
been in communication with
him I have tried every means
to get him to consent to sell
it alone but fruitless —

He has however con-
-sented to sell the whole find
& I can offer it to you for
50 $\frac{1}{2}$ the whole —

I have seen the Supplement
which is in fine condition &
is 12 $\frac{1}{2}$ inches long & 3 inches
wide — I have not seen
any of the other objects but
the list explains them. —

I have got the refusal
for a day or so more so if

You would like to procure
them and will say I will
take them provided the fine
Supplement is as stated I
will procure them at once &
send them. — I am afraid
any day of their being offered
elsewhere so should be passed
& have the honour of an
early reply. —

In writing to me the fact
- is mentioned to those known.

I enclose a reduced sketch
of the Supplement & also of portion
of a Carved Stone Vase.

Yours obediently,

Prichard
