Dear General Pitt Rivers

I am very pleased
to hear from Mr Doran Webb
that there is a chance of
your giving us another
lecture at the Museum.

I am writing to ask
you to fix an early date
as possible - would about
3 weeks hence be too soon
for you? There are lectures

promised after Linnas, but
we want to fill up the time
before that date.

as to subjects we should
be glad to have anything
you have worked up lately
if that would in any way
help you - a Chapter in
Early Romana British Country
life as illustrated by some
excavations at Woodcote &
other places in your district
would suit us nicely &
you have all the material
so much at your finger

sad that we'll be very little trouble
to you -

I need hardly add that it would
afford me pleasure to give you a book
for the night & in my house you
can always do just as you please
WMM kind regards

Yours very truly

W. P. Mackenzie
