

I shall have to be in Salisbury  
some time (or times) next year, &  
will try to arrange to go on Dyon,  
say on a Saturday afternoon.

Have you any geological matter  
that you can bring before the Brit.  
Assoc. next September? I hear & say  
that the President <sup>of the Geologic Section</sup> ~~Elect.~~ <sup>or Select.</sup> I'm  
not sure of the right term, & will be  
very glad to have one from you.

Yours very truly  
W. H. Sturt

Enclose some papers printed which I think you  
will find, & a Warwick note that may interest

28 Dec. 94

(L 1133)

33, East Park Terrace,  
Southampton.

Dear General

I have your first two  
volumes, & I'm sure I shall be  
very glad to have the 3<sup>rd</sup>.

If you send the 2 copies here  
I will take one of them down  
to the Hartley, & save you a  
package!

I like your notion of the  
stratigraphy of the infilling of  
earthwork-ditches. This reminds  
me that my colleague Reid

has got a nice little bit of work  
in Dorset that will interest you,  
which he will write <sup>a paper</sup> about. It  
brings in archaeology, geology, &  
biology, although only Neolithic —  
A tufa-deposit of nearly Neolithic  
date, with plenty of snail-shells  
&c.

I don't know your Egyptian  
paper, & shall be glad of a copy, if  
you have a stock. I generally see  
the Anthrop. Soc. Journal, but not

always. It is always satisfactory  
to get the flints in position.

I should think that Dawson  
may have a predisposition against  
the authenticity of various finds.  
I should think <sup>too</sup> you know a flake  
when you see it better than he  
does, though I by no means question  
his knowledge.

I am very much obliged for  
your kind invitation: indeed  
I've always regretted that I couldn't  
join your party from Bath, & have  
looked forward to another chance.
