My dear Father

When my expenses
came in for the last Bazaar
was providing things to sell, tea &c
also having a lot of people here
to help. also about 10/- was for
for old drawings. I quite agree
with you that in an Institution
there is always one head who is
referred to, but in any subordinate
department unless some discretionary

power is allowed (say in the
case of an agent to DC) & one is
told it is nothing to do with
you, don't meddle! Then I say
all interest in the thing goes at
once - & I don't think Nutter in
that respect is different from
any one else - The pleasure ^{we take} in
anything is in being able to use our
head a little - The Canaries was
only suggested for the winter
not for the summer months -
They are not so high or tracing

as the Ingridine. Nutter & I
are the only ones who call George
Jo, all the servants & people about
here call him Master George.
Nutter now has left off calling him
Jo - he has never slept with his
windows open since he has had
a touch chest.

Your affec^d son
