Pursey Wells. May 31. 95

Sir

Knowing you to know
the reputation of being
the most eminent and
zealous Archaeologist
in the British islands,
I take the liberty of
submitting to your notice,
a photograph of a model
of the Parthenon, con-
structed by my son; it was
intended for the Royal Academy

but they will find no place
for models.

It is perfectly original,
gatherings from various
historians having supplied
the design.

I also beg to enclose
my own business Card
humbly craving your
interest & patronage.

Respectfully yours.

A. J. Fenwick.

Genl Pitt Rivers.
