Clyff Vicarage
Wilton Wiltshire

Dear Gen. Pitt Rivers. July 15 1895

Very many thanks for your promise
of a cart of the Stonehenge
for a museum. There is
another thing I should like
to ask you to give us, should
it be felt disposed to do - and
that is, a representative selection
of fragments of the pottery from your
neighbourhood - I am trying to

Get together by degree, or
series a collection of
fragments of pottery for all
parts of the county & its borders,
for which could be kept for
reference - It seems to me
that such a collection would if
it ever attained any degree
of completeness be useful -

If I remember rightly you
purchased the other day, not
the torque - 3(?) bronze finger
rings.  - for lake - I
ought to ^{plain} have amulets

also for lake ^{workmen} would you care
to exchange one of your finger
rings for an amulet of which
I enclose a sketch ? -
I must not trouble to answer
this -

I write to agree with you that it is
a great pity that the B.M.
should be used to crush local
archaeological interest and
enterprise for the sake of a few
whitewashed -

I am
fully of your

Ed. St. John
