My dear Sir,

I write to ask if you could spare me a copy of your illustrated account of the Museum etc. I shall certainly speak of it in my forthcoming book. Also I don't know whether you have had your Gaulish warrior photographed, but if I think he would make an interesting picture,

Do you know the restorations in the Musee d. Artillerie, Paris?

I see some reproductions of them in La Creation de l. Homme

edited by C Flammarion. Some of the Plates there are not bad.

With kind regards

Believe me

Yours very truly
