Sept. 11/95.

Bridport

Sept 10th 1895

(L1384)

Sir

I take the liberty of informing you I received a note from the men at Broom Quarry, this morning saying that they have another lot of flint implements better than you have had before. I thought that this offers an opportunity of receiving them direct from the men, & seeing the exact depth they are found. I shall be very proud

at Chard Junction
to meet you, at any time
you may appoint & if
you cared to return via
Bridport I could order a
carriage to meet you there.

Returning we should pass
Pilsdon, & Lewesdon, also
the Roman site from whence
I have gathered my best
antiquities.

Yours respectfully
James Ralls.

General Pitt Rivers
Rushmore.

The nearest station is on
the South Western line
Chard Junction.

Should you be unable
to go, would you like
me to send on another
lot of these implements.
