

Answer to one I had
from you when I was
laid up with my
broken thigh. This I
will attend to shortly.
I am glad to say I am
going on well and can
now walk fairly aided
by a stick.

Yours very sincerely
W Greenwell

My dear Pitt-Rivers,

This will be
presented to you by
Dr. and Mrs. Sturge,
who are desirous of
seeing the results of
your explorations
in Dorsetshire &c.
Both Dr. Sturge and

his life have very
carefully studied
in practical
Archaeology, and
are so well versed
in its various branches
as to make it truly
a labour of love to
give them any aid
in their research.

I am sure you will
be glad to discuss

many matters with
them in connection
with their studies.

Dr. Sturge has made
large collections,
principally of stone
implements from
paleolithic deposits,
and is well acquainted
with discoveries in that
of that class of objects.
I owe you a letter in

Dear Sir

I enclose a letter of introduction which by friend Leaman Greenwell has very kindly given me to you. My wife & I are very anxious to see your museum & have arranged to go to Salisbury next Monday the 16th inst with a view to going over to Sarum on Tuesday. We tried a couple of years ago to get there but could get no information as to how this could be done & we consequently

failed in an attempt

I should be greatly obliged if you would kindly tell me what we ought to do to reach Farnham from Salisbury. I am told that Dorchester is the nearest station, but that it is several miles away from the station. I am afraid whether at a small place such as Spresmere Dorchester to be whether a conveyance can be got. Perhaps you can enlighten me on this point.

I must apologize for troubling you in this matter but both by wife & myself are very anxious to see the

collection.

Believe me Dear Sir,

Very faithfully

Wm. Sturge
