CARLISLE VILLA,
PINE TREE GLEN,
BOURNEMOUTH.

Sept 13

Dear Sir

I have come to Bournemouth as an invalid, suffering from overwork in the Emigration of Egypt. I of course find a great want of interest in Egyptian affairs both ancient & modern. Knowing your extensive studies in articles connected with Pal-historic man & hearing here of your well arranged collection I would be much obliged if you could give me leave to examine your collection (in company with Dr Hyla Greves of this place) on a week day. Dr Greves also takes great interest in the Pontish & Saxon Barrow remains - I myself would be very glad to see your Palaeolithic flints from the hills west of Thebes, the identity of which has been

so well confirmed by Petre further up
the valley at Isna. This contradicts the
surmise of a "natural formation" See
Dawson Egypto Syria p. 131-133.

Enclose my card

Yours truly

Genl. Pitt Rivers & c
