Dear General Pitt Rivers
I am rather
puzzled by your letter of
this morning & wonder
what reference the
boiler you put in to
Hinton has to the
cistern we put in
when we took the
house - with the sink

in the nursery passage
cold & hot water taps
see - which were
absolutely required to
make the house
habitable and which
we put in relying
on your distinct

promise to take it ^{off} ~~at~~
~~and~~ our hands at
cost price - if we
were turned out at
the end of our lease
of 3 years.
If you will refer to
my letter you will
see I did not
mention the boiler.
