Leals. House. Bath.

Dear W. Lloyd,

I am sure everyone in here
must be delighted with the work
of the Church roof restoration,
which you have had so well
carried out, and I should imagine
you will have no difficulty in
getting the extra money required,
now that we can all see for ourselves
how much the Church has been
improved. I shall be very
glad to give an extra £20
when I hear that the rest of the
money has been guaranteed.

Yours sincerely,
Percy J. Brown.

THE VICARAGE
WETRE WELLS

L 1421

1 Nov: 95.

Dear Sir,

Your name is such a household
word amongst archaeologists that
I feel sure you will be interested to
see a photograph of our replaced
Bridge & the Screen. The whole
of the Panels are ^{original and} as Aubrey saw
them in 1660, & the beams are
in the original holes. In connection
with the work we have uncovered
our fine oak roof which is now
visible replacing losses where
required

Dr. Porting has promised to
write a history of the church
wh^{ch} is full of interest in the
Wills Archaeological Magazine
& an account will be given in
this month's Diocesan Gazette
of the work.

If you care to contribute
to the deficiency of the fund
we should of course be grateful.

Very faithfully yours

John A. Lloyd

Rev. Pitt. Rivers.
