West Street,
Poole, Dorset.

Dec 25/95.

Sir/

I have received from my son who is in America a small collection of flint implements which he has found among the mountains and creeks of Kentucky. I should say, in comparing them with the best illustrations I can find, that they are remarkably fine specimens, but I am no judge, and having heard of you as an authority I have written to know if you would like to see them. If so I shall be happy to send them to you by post on receipt of an intimation to that effect.

I am Sir,

Yours faithfully
H. W. Burnand.
