ZOOLOGICAL SOCIETY'S GARDENS,

Regents Park, London, N.W.

July 13. 1896

Dear Sir

We have a fine
pair of Gales, they came
here (not full grown)
4 years ago. They have
produced one young
one. The cow is most
likely now in calf, the
male in colour is most
like the wild species.
The price of the pair
will be £60 -

Yours faithfully
A. Bartlett
