CAMBRIDGE.

Feb 20 1896

My dear Pitt Rivers

Many thanks for your  
kind invitation to me  
over to Rushmore and  
hear a deal about things  
that have been going on -  
but my wife & I had  
engagements here today  
and were obliged to

and (2) between Roman  
and the ware made in  
England for rough purposes  
for at least six centuries  
after the legions were  
withdrawn -

I am very sorry I could  
not come to you

Yours truly  
Rudolf Simey Hughes

return last night -

We were staying with  
the subdean Dr. Darnie  
but your telegram found  
me -

I had a talk to one  
of your employees who  
came to the evening  
meeting at which I was  
asked to say a few words.

I took as my text the  
succession of forms of pottery -  
What bothers me most now  
is to distinguish (if between  
Roman and of  
fragments of what they call  
'late Celtic' which I take  
it is only imported native  
ware from tribes which had  
come in contact with the  
Romans on the continent -
