Dear Sir

Many thanks for that admirable guide to the Larmer grounds. The process illustrating are as fine as any in the Century Magazine and much superior to what we generally get from England. I am much interested by pl. 12 (room in King John's house), on account of the fine picture; judging by the little I can see, your Bellini must be quite first-rate.

I have just given order to our atelier to prepare for your museum a collection of casts from our prehistoric carvings. I don't include the Chayngen reindeer, thinking that you must have that already. If not, please give me notice on a postal card. The whole shall be ready and dry in about three weeks. We are very glad to find an opportunity of returning your kindness.

Believe me, Dear Sir, faithfully yours

A. Monnier
