Maidstone

March 11th 1896

Dear General Pitt-Rivers

The President & Council of
the Society of Antiquaries have paid
me the honor of sending me an
invitation to the meeting here to-
morrow evening on the occasion
of a paper at the Temple at
Woolstun being read by W. F. Payne.

The latter will not get quite his own
way. Not being a Fellow, I
am of course precluded from saying
what I think about the whole proceeding.

I had hoped that ere long I might
have the privilege of giving the Society an account
of the excavation I undertook, and
provided I was elected a Fellow, but
this action on Leyce's part, without
provocation of any kind on my
part, renders my effort abortive.

I have had some careful lantern

slides made from the photographs.

Yours very truly

John James.

Professor Pitt Rivers D.C., F.R.S.
