

Mr. G. Brewer presents his
Compliments to Genl. Gen-
A. Pitt. Rivers, and to say
I should you know (or hear) of any
Gentleman requiring a
thoroughly practical man
to manage his Home farm.
or farms in hand, he would
feel most gratefull.

as he believe we are going to have
a good season for Corn & Grass
quite as good as the year of 1884.

The first year I was at Rushmore
when you had such a crop of
corn & hay and every thing
made good. Waiting the
favours of your reply.
