Teignmouth.

May 6/96

Dear Sir

Although you have doubtless read my little paper on Dorset valleys in the Proceedings of the D. Field Club, I am sending you a copy of it, because I know the subject is one in which you are interested & you may like to have it in a handy form.

The Annual Report of the Geol. Survey for 1895 contains several announcements with respect to our work in Dorset & the views which

Reid & I have formed regarding  
the Eocene & the Clay with flints  
As the Report is not a publication  
you are likely to see, I shall be  
happy to lend you my copy if  
you care to see it.

In the course of a week or ten  
days I am going to Blundleigh  
whence to explore the Greensand  
of Haldon & the chert gravel which  
overlies it.

Fruiting you have passed through  
the winter without any serious  
illness I remain

yours very truly  
A Jukes Browne
