Dear Sir

Very many thanks for your kind per-  
mission to work for Lepidoptera on your estate  
I should have replied before but just at  
the time I received your letter circumstances  
arose which made it probable I should not  
be able to carry out my intention. And unfor-  
tunately through my father's illness & his  
being ordered away for three months next  
I shall be unable to work your district this  
season. I am greatly obliged however for your  
courteous permission & the kind invitation.  
It much you have been good enough to give  
me. But which unfortunately I shall be unable  
to avail myself of. I shall still hope however  
another season to try your district as I am  
quite sure there must be some scarce insects

There again thanking you most sincerely,

Yours very truly

Perry M. Bright
