WHATCOMBE,  
BLANDFORD.  
—AND TELEGRAPH—

July 9. 1896

My dear General Pitt Rivers

I have had the  
surface line at Coombe  
Ditch exposed. It can be  
clearly traced but I doubt  
if it will come out well.  
The photograph on the thin  
layer of mould is so obscured  
by the chalk which is the  
chief material. I will  
send you the photograph when  
ready. The pursuit of Blyden  
will let me dig at the  
trenches as soon as the dirt  
is cut. I will take care  
that accurate notes are  
kept. + help you in working  
out your theory which adds  
so much to the interest of  
deciphering unwritten history

WATCOMB  
BLANDFORD

I was glad to see your kind  
benignity from at Blandford  
the other day. Throughly  
satisfied our fraternization

I was with me  
until my kind regards  
from the River

Your most truly  
A. Peacock - Mendle
