

in my possession since
they were found, I have
often been wished to send
them to a Museum, but
have never done so

Yours truly
G. D. Ardy

Aug 14th 196

Sir,
In answer to your
favour of the 12th I send an
outline drawing of the
left molar, the exact length
and width, also the length
of the ear head, I have no
description of the molar
neither name or number,
they have always been

copy

1629th

Sir,

I am directed by Genl Pitt
R. in answer to your letter
to him of the 14th inst. to say
~~Genl Pitt~~ ^{that he} does not understand
your letter. He wishes to
know the no. of moulds
in all. The drawings
are evidently bronze & sword.
You speak of belt
moulds, but there are
no drawings.

Further,
~~Other~~ particulars are certainly
necessary
before any idea of their
value can be formed.

Yours obediently

The ends of the avenues
must be a larger blaze
of light.

Barrier as far as the
road, Leaps Lane, to
curtail the area
through which the people
will pass, from the
railing to the road.
