August 14. 1896

WHATCOMBE,  
BLANDFORD.  
—AND TELEGRAPH—

My dear General Pitt Rivers

Mr. Cunningham  
showed his incompleteness  
& barrow digging yesterday  
(It was a long-barrow)  
Instead of cutting a  
transverse section across  
he cut a longitudinal  
trench & reached the  
solid chalk some way  
from the center, where the  
interment may be expected  
to be found. The old surface  
line was not even marked  
on either side. I think the  
club will be pleased to  
take it as hard, if we

I shall have it done  
thoroughly on your plan  
Could you possibly send  
me three or four days  
if you could it may still  
revitalize the hearts &  
purposes of some of our  
apathetic members. I  
thank you for all assurances  
it is a genuine long hair  
I have been until now  
careless & not Combs Ditch  
photographed - I have  
asked Mrs. Drake to let me  
dig on her property - but  
she resolutely refused. after  
Combs Ditch leaves my  
property - it goes on & here!  
If you can send to attend  
the Boston Association meeting

This year would you ask  
as the representative of  
the Street Field Club? If  
it will be a feather  
in our Cap.

I remain  
your most truly  
C. E. Mansel-Pleydell
