WHATCOMBE,
BLANDFORD.
AND TELEGRAPH

September 1. 1896

My dear General Pitt Rivers
I advise you under
all your difficulties to see
Mr. Allen of Strassburg,
Marshall. I consider him
to be one of the most
independent of agents
in this country. Perhaps
you know him as agent
to Lord Shaftesbury & other
men in London. You
must get good & sound
advice at this crisis
with regard to Melcombe
Horsey from my Barill
says to stick it will

cost you a large sum of
money. The Dairy will
carry 80 cows & the
another 700 sheep. 20
horses will be required.
These 3 items will make
a hole in £4000. Then
come the tillage & other
conspicuous, besides
implements. If you like
it I'll send you
an account of every
thing you will require
as far as you take on the
Farm. About all things
you must have a couple
tent & had a warden Bailiff
to be always among the

Labourers who as you know
work as little as they possibly
can. A thorough knowledge
of the value of stock is also
essential & the favourable
terms for buying & selling
if we can do any thing let
me know.
I think I told you how
Stobroster was best as your
are and gave the very leader
notice to print pretty in
your Duke as his success
to test the question. I am
told this has been had a
most successful result.
I hope to bring the question

Eastern article of Mr. Bunkin
 Barron. From what you
 said last week, I think it
 will be well to do this
 than ^{to} undertake the same
 since history of it will
 be acquired in the ditch!
 We shall have a good help
 in Mr. Highton. He looked
 with me yesterday &
 discussed the question
 thoroughly. The only thing
 now to be done is to
 stir up the dormant
 minds of the members.

I remain
 your most sincere
 W. Maxwell-Plaidell
