Dear General.
You seemed so
anxious about Ice, that
I venture to write &
tell you of an
advertisement I
saw in the Field
yesterday -
The Irish Refrigerator
35. Queen Victoria St
advertise their machines
for making Ice in

Country houses to
preserve game fish
poultry &c or for
other uses —

I am now on my
way to London & will
will you thank

Mr. Pitt Rivers
very much for offering
me photographs of the
Lammer. I should
not care for the lacings

ones, but if she would
give me one taken from
the Theatre I should
be very grateful & if
I had it this week

I could show it to
Mr. Aubrey Lamer as
I am going to stay close
to where he is, & I
hear he is a prominent
figure — How successful
it all was & I hear
the Hinton Bazaar —
