not left. I am trying to
find some stronger
better material &
go on again on Friday.
The well now is about
24 ft deep. We have
not found anything except
pottery besides a part
of a column of freestone
about 8 in by 12 in

I will write you
again if I may when
the work is finished or
stopped.

The wells in the neighbourhood
have not been so dry for over 50 years
& we have now in this well 10 ft
of water

My dear Sir

On my return from
Wales I find the pottery you
so kindly named & identified
as of the same & I am
much obliged to you for
your kind assistance.
In most excellent weather
we resumed the work at
the Well on Monday &
Tuesday but ~~was~~ now are
stopped by three immense
barren boulders that
my pulley tackle will
