Prof. Windle, M.D., D.Sc.,  
Dean.

Nov. 4. 1896

Dear Sir,

Your letter received to-day  
crossed mine written last  
night, in which I explained  
about the vols - I find we  
have already [by gift from  
yourself] the 3 vols relating  
to Craybone Chase, but they  
are in the Librarian's private  
room & not in the book case  
devoted to Anthropology which  
accounts for our not  
having been all aware of their  
being in our possession -

We have not, however, the other  
two books (K. Whis House & the  
Museum) & if you would add  
to your former kindness by letting  
us have them, we should be  
greatly obliged - and I thank  
you from myself for your kind  
willingness to present the  
others - I was at Tollard  
Royal a few weeks ago & hope  
to visit that part of the  
County again next year.

When I do may I ask if I  
might be permitted to see the  
wood cuts & all other such  
remains of your property?

I am,

Yours faithfully  
Arthur J. Windle.
