Dear Sir,

I believe that a terra-cotta model of a boat, which was found in Rhodes some years ago, was sold to you as lot 527 in an auction at Sotheby's on 5 December 1885.

I want to engrave this model in a History of Ancient Shipping that I have in hand at the University Press at Cambridge. Will you allow me to do this?

and can you tell me whether the boat is down at Rushmore or in your London house? I should like to have the drawings made by a man who has already made a number of drawings for this book, as I want to get the illustrations as much as possible in the same style.

Faithfully yours,
Eril Towne.

General Pitt-Rivers.
