(L767)

Dear Sir.

I am very greatly obliged to you for your kindness in sending me your book on King John's House. Working here as one does with scarcely any one interested in such researches near, the kindness I have received at your hands has been a great encouragement to me. The three beautiful volumes you were good enough to send me before I count among my treasures.

I may be glad again to trespass on your kindness for a little advice, as you kindly

intimate I may do so. I trust  
You are now better.

Believe me,

Yours very truly,

Geo. Sandon
