9, RUE CAPOUILLET  
BRUSSELS

March 26.

Dear Sir. I have during many years past been accustomed  
to read with great interest your contributions to Anti-  
quarian journals and to study the most excellent  
collection of ethnographic specimens placed <sup>by you</sup> in the Uni-  
versity Museum of Oxford called after your name.  
When I was visiting England the other day my friend  
Mr. Kings David, Secretary of The Royal Asiatic Society  
told me that you had collected all your written anthro-  
pological papers and had them bound up in Vols. A &  
I have been occupied for a great many years in searching  
through the three bound up in your papers. The collected edition  
of these latter would be of unspeakable value to me  
especially as they contain a great deal of information  
with regard to the country about Salisburg and Stone-  
henge. That the latter is a sun <sup>temple</sup> dedicated to former  
days like British sun horse & other worshipped in the  
Neolithic and Bronze Ages. I have now to do with and  
I think I have passed the ancient sun temple contained  
in Vol. A of my book The History of Prehistoric

BRUGS & CO. PRINTERS  
OF THE CAPITAL

Times. and I have added some further parts to a couple  
of articles I have just finished for the West Coast  
Review which will on the same Depoits of the London  
which will be published in 2<sup>d</sup> and 3<sup>d</sup> June.

If your books could be brought in the market. I could have  
induced them to be sent to me but I think that they are  
not worth for private distribution

Would it be too much to ask you to send me a copy and  
if you agree to my request may I ask you to accept  
a copy of my book The Making Peace of the historic  
Times which I shall ask my publishers to send  
you.

I am ever faithfully

J F Hewitt
