To _____

Dear General Pitt Rivers,

I thank you as much for your letter of the 12th, and regret exceedingly that at present I cannot run down to see your Museum, & thus accept your very kind invitation. However the "Guide" sent, will enable me to give some kind of notice respecting same in the next number of the "Zoologet".

The proposed communication respecting your experiments in cross-breeding, especially between the Zebu & the Fok, will be most welcome & valuable. Can you advise me with some degree of the next fortnight? - as I go to Penzance - and I will reserve the first page for the same - I do not wish to impose a heavy task, a few pages will be welcome, the more there is of it however the better we shall like it.

Yours very truly
W L Distant

Written to you Mar. 16/98.
