My dear Sir,

L1795

Your wish to borrow  
one of the Bagley urns, for  
the purpose of having it litho-  
graphed, was brought by me  
before a meeting of the Council  
of the Dorset Museum today.

There was not a quorum,  
but the members of the Council  
who were present instructed  
me to write as follows.

While most desirous to com-  
ply, they are afraid that  
there would be too much  
risk in sending this fragile  
urn by ordinary conveyance.

But

But if you happen to have  
an opportunity of its being  
carried to you by a careful  
private hand, I am author-  
ized to pack it, and deliver  
it to any one commissioned  
by you.

On the other hand I need not  
assure you that, should you  
think proper to send a draughts-  
man or photographer hither,  
he would have every facility  
afforded to him.

I am yours truly

R. J. Moule.

Col. Genl. Pitt Rivers. R. A.  
&c. &c. &c.

P.S. I hope that you are quite well now.
