My dear Sir

I sincerely hope you will not think me discourteous in not having visited you before. The fact is I am occupied night & day in the preparation of a great article on the Royal Family necessarily almost daily journeying to Windsor & the other Royal Palaces. I think this explanation due, because I am really looking forward with interest to my visit to your place. I want that visit to be at a time when I have virtually two disengaged

days - which should be in a week or two at most.

I am

Yours very truly

Wm. Pitt Rivers
