Walton Grove,
Walton-on-Thames.

My dear friend at Pitt Rivers.

Dr. Beaumont tells me he
has told you about an Indian
window. My husband bought it
at the Indian Exhibition of
1883. It is a very fine piece
of work. I am afraid I
cannot remember what he
paid for it. He can tell you
when I return. But I think
you should see it before you

decide on it. I can leave it
unpacked. and put up so that
you will be able to take the size
and see if it is too large for
your Indian house at the
Lanier. It is a large window &
is perfect condition - quite
perfect. I believe it is intended
to be built into a room - I do not
expect to have a house built to it
& will be glad if it suits you & all

it - I go home early next week. & if you
will say you will come over. I will
leave it ready for you -

Yours sincerely -
