

I had intended selling the
Wandle find in one lot. but
have parted them for you.
The only collector to whom I
have yet offered them.

Dear Sir

I now send a few things
which I hope will interest
you. I found a good number
of Stone Implements at
Icklingham & Stow. but
they are not so numerous
as formerly.

I found there were at least
three Barrows unopened yet &
I hope next year to have
a turn at them.

Arrow heads still occur & I got
two very nice small knives
some worn scrapers & flint
a few scrapers, as fine as
any I have seen. I expect
that you have as many
of the ordinary Stone things
that you would not care
for them, or any of them.
One thing struck me as very
curious. so many of the
most prolific spots are
enclosed by a low bank on
each side - but they (the enclosed

spots) are all square in
form. & I therefore presume
that they are not ^{British} ~~British~~
there are a number of old
backways leading from the
low level ^{road} to the high ground
where the best things occur
& the whole place seems a
gigantic puzzle to me, who
knows nothing of military matters.

I am

Yours most obediently
E. J. Lawrence
