Monsieur le général

I have learned you are
occupied with the subject
of Hybridity in animals.
This subject is very
interesting, and since
many years I am
also very much occupied
with it —

If you were so good as
to let me know the
results of your researches
(or of your experiences)
you will render
service for my studies

Please agree in
advance, Monsieur
général, the expression
of my grateful
and distinguished
sentiments
