Dear General Pitt Rivers:

I ought to have written before to  
thank you for your Dr. Beckett's  
Address which you were kind  
enough to send me. - I might  
ask - if you have ~~one to spare~~  
- for a copy for the British  
Museum Library? -

I have been very interested in  
reading it - especially of your  
account of the finding of flint

Plates is situated in the site of  
the tomb at Thebes -

I have lately been collecting the  
Remains of your antiquities, and  
having at hand come across two  
interesting things - a Fibula of the  
same type as the remarkable specimen  
in Orice described by A. J. Evans  
in Archaeologia - and a triangular  
Celtic stamp found in a  
Roman well at G. V. Bedwyn with  
a pattern of distinctly Celtic  
character upon it - neither  
of these has ever been described

with illustration -

I am - faithfully  
yours

Ed. H. Goddard.
