My dear Pitt Rivers

Many thanks for your
address to the Archaeological
Institute at Dorchester - I wish
I had been there to hear it &
see the things you exhibited -
I heard from Lord Billies that
you had a very good meeting -
In looking through your paper
I was much struck by the

similarity between the
ditches you figure on plates
250 and 251 and that
which I dug in on the brow
of the chalk hills near
Cherry Hinton - A section
of that is still exposed and
you must come and see it
some day -

yours sincerely
Thos Kenny Hughes
