

Alma House, Weymouth

March 14 1898

(12059)

Sir, I much regret to
hear of your illness, there
is so much ill health
everywhere at present, but
it is warmer today.

The only alteration in
my collection is, that
about 20 very pretty
bivalve fossils came off
the boards to which they
were cemented - labels & all
- so I gave the lot in
repair to the Dorchester
Museum. Lodmoor Marsh

quite prevent any accession
of any value being
kept here, or the sooner
all is gone the better.

Would the gentlemen who
you say are employed
at Sotheby's undertake the
matter? I should be
glad to see him if
he gave notice of coming
trusting to have improved
accounts I beg to remain

Ser

Your Obedt Servt

Ed. Cunningham
