March. 27. 1898.

Dear Sir

I have for a long time had a
strong wish to see your the
Museum you have founded &
formed at Farnham or Wotton
Royal and as my wife & I
hope to go into Dorsetshire
next week we shall probably
manage to do so though I
am at present ignorant of the

And in a small way a
Collector of Antiquities &
I have watched your purchases
at the Bateman & other sales
with ~~admiring~~ interest.

My wife by the way is
highly descended from Bateman
the Antiquary & has to a large
extent inherited his taste.

She will be no less interested
than myself in the event
of your allowing us to see
a portion of your Antiquities
Collection. ^{with apologies for this}
^{intrusion} I am yours faithfully
Thomas Greg.

best method of getting there.
But what we should both
prefer, if it were possible,
would be to see your own collection
of mediæval Antiquities under
your own guidance. I hope
I am not taking too great
a liberty in expressing this
wish, & would from your work
dare to prevent its fulfil-
ment. But should you be
willing to satisfy us how could

it be done at the least
inconvenience to yourself?
We hope to go to Lyme Regis
some time next ^{for a week or so} week and
I do not know how near
Rushmore is to Salisbury
but if we were allowed we
could easily break our journey
in order to have the
pleasure & privilege of
being shown your Collection
I am a fellow of the
Society of Antiquaries
