My dear Father

I told Uncle that
you wished him to do all the
arranging about letting the house,
we have no money to go abroad
unless we get money by letting,
of course it would be much nicer
if you gave us money to go abroad
with out letting the house, this
emigration is certainly not for
my pleasure or Mutter, but it is to
give me a good chance of getting
strong before he goes to school, if

The
we cant get money we cant
take him & go with him to
take his chance like other
poor people - going abroad
for health is not a cheap
thing to do, especially with a
wife & two children -
Dr. Beaver recommended the
Canary Islands as being cheaper
but now with this war going on
I dont think it would be possible -

I hear that Mr. Hale is dead
& that you have a time to give
away - I should think that
Mr. Bellows would be just the

sort of man you would like -
He is a curate & wants a
living - he would be a very good
man to back up the Lamen tree
he goes in for Higgan Hinshels
& all that sort of thing - & he
is very popular with the people -
