Dear Sir

Excuse my not having
answered your letter sooner
but I have been away from
home for a little time. I
do not care to send the stones
on account of their weight &
the distance, which would
also probably make it not
worth your while to come over
specifically to look at them. But

shared anything at any
time bring you into the
neighbourhood I should
be always be very pleased
to show them you. all my
specimens are from this locality
of which is, I think, well known
but in every case I can add
to the exactness by reference to the
nearest village & in that of
most of the palaeolithics, to the
actual pit.

Yours very truly
