Nottingham.

June 24th 1885.

Dear General Pitt Rivers

The particulars
about the chain armor
I have just received:
it belongs to Major
Beuson - R. A. -
was got during the
Donnera expedition.

of 96 - sold by auction
Major Benson being
the purchaser - The
peculiarity appears

to be that the rings
look as if they were
solid, & (from the
remembrance of its
look) do not appear
to have any marks

where they join - My
correspondent adds,
that he will endeavor
to find out Major
Benson's present
address & will write
& see what information
can be collected from
him on the subject.
I will send the code
& hear from you long
& advise you of
their despatches - I
