My dear Sir,

I think it would certainly be desirable that another year the Entertainments at the Larmer should not clash with the horse show. I always have it on wed. in the 1st week of Sept., because the light suits for the illuminations but this year it was put later on account of the Manœuvres + I did not know about the horse show. I am afraid it must have clashed as there is always a large attendance at the Larmer + this year to my surprise it was equal to last year 9666. wed. is the early closing day for Shaftesbury + most of the towns about here which makes it imperative to have it on that day perhaps it would be better for you to change the week, which as you are not dependant in any way upon the light would be no inconvenience, but I will keep your letter + when the time ~~comes~~ arrives for you to publish your show we could discuss the matter again. Y^{rs} truly
