54, HIGHBURY HILL.  
LONDON N.

Dear General Pitt Rivers

I have much regretted to hear bad accounts of your health, but hope that the publication of the fourth volume of your sumptuous account of your valuable explorations on your own estates may be taken as <sup>an</sup> indication that you are now better. I am sorry we do not see you often at the Anthropological Institute now.

As you have been kind enough to send me the other three volumes I hope I may also receive the fourth in due course  
Yours Very Truly  
A. Lewis
