Dear General Pitt-Rivers,

I heard incidentally
the other day that the
fourth volume of your
splendid series of archae-
-ological investigations is
now published. As I am
the fortunate possessor of
the three first volumes
I am sure you will
forgive my asking you to

complete my series.

You will be glad to learn that the Essex Field Club — whose early work in Archaeology you did so much to promote — is now, thanks to the generosity of Mr. Passmore Edwards, about to have a respectable Museum of its own at West Ham.

It is to be hoped in the interests of pre-historic Archaeology that this fourth volume of your researches is to have a successor.

Yours very truly,
R. Meldola.
