Sir

Having heard that your
~~your~~ great work had reached
vol IV I take the great liberty
of applying on behalf of the
Bridport Literary & Scientific
Institute hoping your kindness
would extend this vol also.

I would assure you the previous
vols are highly valued, carefully
preserved in our Reference
Library & are referred to by our
members & will no doubt aid &

stimulate archaeological research
in this especially rich & beautiful
district.

My own set would also be the
richer for the additional vol, which
is ever at the service of any I
think likely, to be interested
in these fascinating studies.

I take the liberty of enclosing a
photo of the little bronze bull
I found & have been very pleased
to find that there are several,
more or less similar, in the
St Germain en Laye Museum

Yours respectfully
James Ralls
